

MATERIAL HANDLING DIVISION

TALASCEND'S CONVEYOR INSTALLATION EXPERTS

ADAM MOORE
TALASCEND | SAFETY MANAGER

EMPLOYEE TESTIMONIAL

"I remember the day Talascend called me with an offer to become a Safety Manager for their Material Handling Installation Team. It was a day that changed my life and the best and easiest decision I have ever made for myself and my family. I look forward to coming to work every day and although it took a lot of hard work to get to this point, Talascend IS the career for me.

As a Safety Manager, my position allows me the pleasure of ensuring all safety standards are met on each job site that Talascend is working. For the past twelve (12) months, I have been working with one of the largest conveyor installation companies in the world; helping build the first Fulfillment Center in Bessemer, Alabama. What a ride it has been!

It didn't take me very long to understand that the life of a Mechanical Installer is not for everyone, but if you like a challenge and are up to solving different problems every day, this career may be one to consider with lots of growth opportunity and great earning potential.

Our teams travel all over the U.S. for the duration of each project. Our crew is comprised of some of the most dedicated individuals you will meet. We show up to work early, and don't leave until the day's job is done. Working in an environment with many moving parts, safety is our life and a requirement to come home each night. Our mission is to "go home the way we got to work" and I am happy to say that we always do just that ... Safely, Healthy and Happy.

I am proud to be part of this Talascend family. The opportunities within this company are endless if you put in the work. It takes grit, sacrifice, determination, and a commitment to working safe each day, but you will get back everything you put in and more! Contact us today to learn about our openings."
